

Acknowledgement of our Reviewers

Fernando Carrera

Editor-in-Chief

The switch two years ago to monolingual English publication allowed the *Portuguese Journal of Nephrology and Hypertension* to avail itself not only of the expertise of leading national nephrologists, but foremost international experts as well. Having world-wide scientists as reviewers has been an important tool for improving the standard of our journal. Several of you have commented to me personally as Editor-In-Chief that the reviewers' comments you have received have raised the

scientific quality of your work, and many people have appreciated that the international presence guarantees our journal publishes articles and case studies which are a true contribution to the development of our specialisation.

As is customary, the final issue of the year gives me the chance to thank these colleagues for their kind and helpful work on behalf of our national journal. To all our reviewers, both here and abroad, my sincere appreciation.

The Editor-in-Chief is grateful to the following reviewers who kindly reviewed manuscripts for Volume 22 in 2008.
